

### **Castle Fly-Out – April 19, 2008**

Old 3074-H flew down to Castle on April 19th but found no Ercoupes . It was a good flight with no wind. Our C.A.F. group in Modesto is the caretaker of the old B-29 so we worked a bit on the old bird and then flew home. I may be able to catch your group at another fly -in. Jim Sanders & N3074H.

Rick Eason also arrived at Castle however; he didn't make contact with Jim and reported seeing no other Ercoupes at Castle. (No photos)
