

Sunday July 13th, brunch @ Cable Airport, Maniac Mike's Airport Cafe.

Weather cooperated and we ended up with a nice turn out of 11 people, 6 planes including 4 Aircoupes for brunch @ Cable Airport, despite two Ercoupes with mechanical issues.

Gary Dallugge flew in from Camarillo in his Forney with Ron Minear (Ron's 'new' Alon is down for an engine overhaul). Les Slifkin flew in from El Monte in his pretty Alon. Ted Reusch joined the group and flew into the event in his Alon (is anyone picking up a trend here?).

Fred Wilson flew all the way from Henderson Nevada to join us, in his BIG ERCOUPE (Piper Dakota)!! Fred definitely received the longest distance flown award for this event !

Julio Magnan who is new to the group also flew his 'new' Ercoupe in to join us briefly, and had to depart a little early missing the group brunch. It was great to have the opportunity to meet Julio and we look forward to seeing him again soon.

A mechanical glitch grounded 68H temporarily, so Dan Hall & Anna Marie Flowers drove in, arriving at about noon. Dan Campbell finished off a round of golf, then drove all the way from Seal Beach to Upland to join us around 1:00. I think Dan C had the longest trip, time wise, after Fred. It was good to meet and chat with Dan C !

Stuart DesBrisay also joined the group for brunch (more like lunch). Linda Abrams had mechanical issues with her Coupe and was not able to attend this time.

Last to arrive (in an RV-8, no less!) at around 1:30 PM was former Couper Eddy Tohikian.

Fred departed about that time, which is not surprising considering he had to make the flight back to Henderson, while potentially dodging scattered thunder showers in the high desert, and possibly along his route.

We all enjoyed sitting and chatting about recent flights, events, and technical issues. Anna Marie chatted with Fred, Dan C. and others in the group; and read the Sunday paper when the talk turned technical.

Just a quick observation; it would be good to have couple more women participants in the SoCal group events. (Hint, hint!)

It was a very good day however; Dan Hall & Anna Marie really missed our 'airtime', and look forward to flying out to the Camarillo event the following week.

Attendees;

Dan Campbell	N94798 Drive in
Stuart Desbrisay	N/A Drive in
Dan Hall	N3968H Drive in
Anna Marie Flowers	N3968H Drive in
Gary Dallugge	N3040G Forney
Ron Minear	" " (Alon down for engine OH)
Julio Magnan	N99711Ercoupe
Ted Reusch	N5486E Alon
Les Slifkin	N6527Q Alon
Eddy Tohikian	N61EDVan's RV-8
Fred Wilson	N8083Y Piper Dakota (from Henderson, NV!)

Missed;

Linda Abrams
Kent Pramhas
