

**Oceano Airport, Pismo Beach, EOC Fly-out September 13, 2008;**

Well, overcast skies in the LA Basin kept everyone in SoCal on the ground until at least 1:00 PM, so all those who were flying out of SoCal made the safe 'no-go' decision. Bob Ensley flew in from NorCal in a Cherokee with a student, saw no Ercoupes on the field, and departed not shortly after arriving. <http://www.airnav.com/airport/L52>

Bob provided some photos and a couple of comments....

No Ercoupes pics to share today. None showed up. A relaxing walk on the beach made the trip very enjoyable. The clouds were gone when we arrived. The fish and chips place I was so looking forward to was closed. Flew south over Lompoc then turned around and headed back home. Bob N5698F
